

# FAST

## Financial Analysis & Spreading Tool

**"Time defines value & Efficiency is doing better what is already being done."**

**~ Peter Drucker (1909 - 2005)  
Founder of Modern Business Corporation**

An adage which applies to every business entity that is yet to be in step with the swift pace of financial monitoring, calculations, industry comparisons & meticulous analysis.

## Why FAST?

The demand of the day for Credit teams is to have **ABSOLUTE ACCURACY, REDUCED TURN-AROUND TIME FRAMES** and a **FULLY AUTOMATED** platform that is dedicated & focused towards providing a rich system for effective evaluation of the financial performance of a borrower at different stages of the Credit lifecycle. It will optimise Analysts time by reducing their manual work component & help them to focus on additional varied tasks. Post this pandemic induced major stress event; it is paramount for all Credit teams across the BFSI lending ecosystem, to consistently and pro-actively monitor the financial statements of existing as well as new credit borrowers.

@ 2021 Auronova Consulting Private Limited. For more information, please connect at <https://www.auronova.in/>

Brings to you an industry-leading, multi-faceted, fully automated analytical **Financial Analysis & Spreading Tool – FAST**; with industry specific custom-tailored features;

Reads & extracts financial statements from annual reports in multiple formats of annual reports i.e., PDF, Image, Text, Hardcopy & more

Generates 100+ Financial Ratios, Trend Analysis & Reports

Derives Accurate Financial Projections

Benchmarks metrics with Industry for higher Comparative study

Develops an all-inclusive Financial Risk Rating for companies

FAST has been designed using advanced technologies like OCR & NLP that delivers Financial Spreading with a single-click for a Credit manager, instead of the archaic and arduous manual process of data entry into legacy spreading tools. FAST automates below mentioned processes and stages of Financials' Analysis:

Creates Custom & Pre-Defined Financial Ratios

Configurable Spreading Templates

Efficient Industry Benchmarking

Defines & Monitors Financial Covenants

Supports major Accounting Standards – IFRS, GAAP

Optimized Financial Sensitivity Analysis

Seamless API integration with third-party systems

Multi-format Reports & Counterparty Analysis

Ability to Enhance Financial Risk Rating

Our objective is to help Credit teams significantly reduce their time cycles w.r.t Financial Spreading, be more accurate with calculations, enhance quality of Industry benchmarking & projections, help in digitization of financial records and databases. All this and much more with just ***a single click on FAST***
